PROFESSIONAL EXPERIENCE

Venzo Technologies, Madurai   **April 2024 – Present**
Front-end Developer Intern

Collaborated with experienced developers to create responsive web applications from design concepts. Using HTML, CSS, JavaScript, React js, I contributed to all stages of development, ensuring seamless user experiences across browsers and devices. Actively staying updated on frontend trends, I offered innovative ideas and effectively communicated with cross-functional teams to achieve project goals. Through code reviews and feedback sessions, I improved coding practices and honed my problem-solving skills.

Quantanics Tech Serv Pvt Ltd, Madurai   **Sept 2022 – June 2023**
Software Tester

Developed and implemented a streamlined automation process for planning and executing test cases as per the requirements, reducing project testing time by 15%. Developed and implemented a standardised reporting framework, resulting in improved visibility of key performance metrics in software development and software testing at all stages of software development life cycle.
